Several weeks ago someone wanted a cheap place for chem lights. Try Oriental Trading Company: Order a dozen 4" lights for .90 a piece. They also carry other sizes and styles. Prices vary. Their Toll free number is 1 800 228-2269.

In regards to sources for Chem-Glo (Cyalume) sticks.

<Insert standard disclaimer here>

Here's a great source that I've found for Glo items (high intensity dive sticks and the like) plus they also carry other survival and emergency items, for earthquakes and the like. Pump flashlights that don't need batteries, 50 hour liquid candles. they also carry items like light sticks=,=20 food water and storage, books audio and video, Pack style kits, emergency=20 related tools, fire prevention, first aid kits.

I've had great, prompt service from them everytime I order from them.
