Subject: The NetWoods Virtual Campsite additions

I have uploaded a bunch of new files to the Campsite, but in particular I want you to know about 2 new items.

The first is selections from the DELTA (Developing Ethical Leaders Through Action) material, including training ideas, ethics and leadership training activities. It is excellent material which is the basis of much of the current BSA training activities, but is not available anymore. It is in Word for Windows format and zip'ed .

The second is the BSA Camporee planning guide. This has the basic outline of how to organize and plan a camporee. This is standard BSA material, but is apparently not widely known about or available. It also contains a large selection of DELTA-type games usable for camporees. It is available in HTML for on-screen viewing, or as a Word for Windows document, zipp'ed.

Oh, yes. There is a new, updated income tax scouting deductions document for the current year from Tom Turba.

I hope you find this new material useful. At this time it is available only on the Bulletin Board until I get the other pages updated. The URL is:
